

Constant Voltage & Constant Current LED Power Supply

SLT6-350ILs
SLT6-700ILs

Product description:

This series was designed for compromise between an attractive price and high performance, which meets SELV standard of preventing electric shock. Protection of open circuit, short circuit, over load and over temperature increased safety in processing. Low standby power consumption complies with ERP directives. Optimized electric circuit design brings cost-effectiveness.

Standards:

EN61347-1
EN61347-2-13
EN61547
EN55015
EN61000-3-2
EN61000-3-3
EN62384
EN62493

Characteristics:

- Compact dimensions
- Independent use design
- Compatible with constant current and constant voltage function (350mA and 700mA model)
- SELV output (<60V)
- Low output ripple current $\leq \pm 10\%$
- Fast start-up time $\leq 0.5s$
- No load power consumption $\leq 0.3W$
- Open circuit, short circuit, over load and over temperature protection
- Auto restart after fault conditions removal
- High efficiency 79%
- ECO design, comply with ERP directives

	protection class	CLASSII		
Note	<p>1. Tolerance:includes set up tolerance, line regulation and load regulation. 2. Tested at full load,230Vac.Refer to"Power Factor" and "EFFICIENT"curve graphs. 3. All parameters NOT specially mentioned are measured at nominal voltage input, rated load and 25 of ambient temperature. 4. The power supply is considered as a component that will be operated in combination with final equipment. Since EMC performance will be affected by the complete installation, the final equipment manufacturers must re-qualify EMC Directive on the complete installation again."</p>
